

Dear IChemE Water SIG, WashDoctors & 'Italians in London',

At the end of 2018, you decided to be part of ending the water crisis by making a substantial investment in charity: water's work in Cambodia. The impact you have as a Water Project Sponsor is truly transformative, and we are celebrating with you today as you learn more about the work you've made possible!

100% of your generous donation funded 2 Water Filters for people living in the Tboung Khmum, Kampong Thom, Kampong Cham, Kampot, Svay Rieng, Prey Veng, Battambang and Kampong Chhnang Provinces of Cambodia.

Thanks to you, we're one step closer to making sure that every single person on the planet has access to clean and safe water. Your donation was part of a \$1,991,935.31 commitment that funded 979 projects and brought clean water to 154,094 people!

Clear Cambodia, our local partner, operates the largest BioSand Filter (BSF) program in the world, implementing roughly 22,000 BSFs in households, schools, and clinics each year. Because community engagement and ownership are key to ensuring sustainability, a representative from each household or school is required to help construct their own filter to learn how to properly clean, maintain, and repair it as needed.

It's an honor to present you with this Completion Report. In my role as a Water Programs Manager at charity: water, I oversee our partnership, implementation strategy, and commitments in Cambodia. It has been an immense privilege to witness how life-changing clean water is for those in need. You are bringing our mission to life and giving hope to so many. Thank you for your generosity.

Sincerely,

Stephanie Goetz
Water Programs Manager, charity: water
