

# Ready for change?

Join our decarbonisation hackathon to find ways to decarbonise the Teesside region.

Together, let's explore practical ways to reduce emissions in the region. We want to find short and longer-term solutions for local industries, making a tangible impact on their carbon footprint.

We're also giving out prizes for the best ideas, including the chance to be fast-tracked through our intern or graduate recruitment process. Students from all year groups of STEM degrees are welcome.

Sign up now and let's get the conversation started.

**Time and date** - 9am Friday 20th October 2023

**Location** - Middleborough College STEM Centre, Windward Way, Middlesbrough TS3 6AF

**Sign up** - [Fill in the form here](#)

**More information** - [Ross.Sheldon@Worley.com](mailto:Ross.Sheldon@Worley.com)

Please note the event is subject to COVID restrictions.
