

## INDEX

### A

- Advances in gas cloud dispersion modelling: heavy clouds on sloping ground,  
Webber, D.M., Jones, S.J. and Martin, D. 351
- Analytical methods and working experience with post-Cullen analysis of  
evacuation, escape and rescue, Forster, J.H. and Wong, N. 689
- Andrews, G.E. (see Phylaktou, H.) 525
- Approach to the quantitative evaluation of safety on existing mobile drilling  
units, An, Sherrard, C.P. 639
- area classification 375
- Argent, R.P., Cook, P. and Goldstone, P., Life cycle risk assessment and  
implementation on an expansion project for a hazardous facility 439
- assessment 593
- Assessment of evacuation, escape and rescue provisions on offshore installations,  
The, Wallace, I.G. 713
- Assessment and management of risks to the environment, Welsh, S. 85
- auditing 123, 149, 171

### B

- Barrell, A.C., Control of major hazards offshore - implementing Lord Cullen's  
recommendations 1
- Bellamy, L.J. (see Hurst, N.W.) 129
- Bettis, R.J. and Jagger, S.F., Some experimental aspects of transient releases of  
pressurised liquefied gases 211
- Binding, T.M. (see Pritchard, M.T.) 491
- Bleeze, A., Cracking health and safety management 123
- blowdown 195
- Blowdown of vessels and pipelines, Richardson, S.M. and Saville, G. 195
- Buckland, I.G., Use of fire and gas detection systems as part of the safety control  
package 283

### C

- Calibrating hazop studies, Stevens, G.C. and Humphreys, M.A. 483

calorimetry	249
Canaway, R.T., Loss estimation for refineries and chemical plant and risk improvement	459
Can we identify potential major hazards?, Crawley, F.K., Grant, M.M. and Green, M.D.	427
Capp, B. (see Cooper, S.P.)	385
CIMAH	15, 39
CIMAH installations	85
communications	671
Comparative study of the management effectiveness of two technically similar major hazard sites, A, Williams, J.C. and Hurst, N.W.	73
Comparison of event tree, fault tree and Markov methods for probabilistic safety assessment and application to accident mitigation, James, H., Harris, M.J. and Hall, S.F.	59
computer modelling	85, 491
Computer simulations of wind and ventilation aid platform design and safety, Ronold, A.	375
containment	249, 385
control	149, 671
Control of major hazards offshore — implementing Lord Cullen's recommendations, Barrell, A.C.	1
Cook, P. (see Argent, R.P.)	439
Cooper, S.P., Moore, P.E., Capp, B. and Senecal, J., Investigation into the use of active detonation arresters for solvent and waste gas recovery systems cost-benefit analysis	639
Cracking health and safety management, Bleeze, A.	123
Crawley, F.K., Grant, M.M. and Green, M.D., Can we identify potential major hazards?	427
cryogenic	439
Cullen report	1, 39, 689
<b>D</b>	
Dalzell, G. and Melville, G.S., Method for preliminary design of fire protection requirements on an offshore oil production platform, A	559
deflagration	385
depressurisation	195
design	559
detonation	385
disposal	249

<b>E</b>
